

Charter

galeriedart.org

The art gallery association is managed by a committee of artists
and friends of the gallery

Preamble of the committee.

The experience of Artamis, and more particularly the one of Bâtiment 71, has enabled us to develop and live solidarity between artists. The practice of self-management of workshops and exhibitions has trained us. We have been campaigning as a collective since 1996 for dignified working conditions that respect the particularities of each individual. The association galeriedart.org was created in the same spirit.

In addition to its goals, the association has the following objectives :

- propose meetings and debates for its friends
- accompany the works with written comments to make them accessible
- communicate regularly with the amateurs through newsletters
- promote a working atmosphere that encourages the sharing of information
- pooling individual skills
- encourage evolution and change
- promote a solidarity economy that affirms the importance of artists' work
- to base the management of money on transparency and equity
- reduce costs as much as possible by using new technologies : website, online sales, social networks
- to invest profits primarily to achieve the aims of the association

This charter binds the members of the association galeriedart.org
By signing it they declare to support the objectives of the association.

Geneva, 11 October 2014

« For artists do not operate in isolation. And artists can only function in complete isolation. »
Liam Gillick
